TALES OF HARDSHIPS

Undergone by Spanish Troops in Cuba's Subjection.

OPEN REVOLT IN VALENCIA

Chamber of Deputies Awakes to the Fact That Uncle Sam Is Not to Blame For Spread of Hostile Feeling—Religious Prejudice Don't Work—Sympathy For Cuba Growing.

MADRID, Aug. 7.—Trouble of a serious nature is being fomented in Spain, particularly in the province of Valencia, by agents of the Cuban insurgents. The minister of the interior, Senor Cos-Gayon, yesterday, replying to a question in the chamber of deputies, admitted that a number of riots had occurred in Valencia, and when asked to explain the cause of the disturbances, said they were caused by the friends of the Cuban insurgents, who hoped thereby to prevent the departure of further reinforcements of troops for Cuba. Hitherto the popular demonstrations have been attributed entirely to protests against the imposition of new taxes, a step made necessary by the financial strain the government has been subjected to through carrying on the campaign against the insurgents of Cuba.

But, while the government is only willing to admit that the riots have been instigated by the agents of the Cuban revolutionists, it is generally admitted that the roots of the trouble are much deeper, and that it is being nourished by the natural feeling of alarm and dismay at the apparent utter inability of the government to cope with the situation in Cuba. That the large Spanish army in Cuba must be still further and heavily reinforced is looked upon here as being a confession of weakness upon the part of the administration and as an admission of the growing strength of the Cubans.

In addition, many letters have been received in different parts of Spain by the relatives of Spanish soldiers serving with the army in Cuba, and they tell such terrible tales of sickness, privation, incompetency and mismanagement, to say nothing of lack of pay, that a dangerous feeling against the government has arisen and is gaining strength day by day. Under the circumstances the agents of the Cubans do not have much difficulty in carrying out their plan of causing popular outbreaks. The steadily fan the flames of discontent by pointing to the apparently unnecessary hardships which the Spanish troops in Cuba are compelled to endure.

The republicans, also, are taking advantage of the situation to push their propaganda and the combined movements are making more headway with the masses than the government will admit, although it is already betraying symptoms of alarm and has sent stringent instructions to the prefects to promptly and effectually suppress demonstrations which may occur in their districts and to have no hesitation in calling upon the militia for support. A number of conflicts between the rioters and the police and soldiers have already occurred, shots have been exchanged, several persons have been wounded on both sides and a large number of arrests have been made.

This, the revolutionists hope, will serve to call attention to their cause and enlist in their behalf the sympathy of the people. The roads in Valencia are being patrolled by gendarmes, troops are pursuing armed bands of revolutionists in the mountainous districts of the same province and further trouble is apprehended.

Madrid, up to the present, has been quiet, but signs are not wanting that the spirit of discontent is abroad and that the efforts of the government to gain support by trying to throw the blame for everything upon the United States, the chief bugaboo of Spanish politicians, will not much longer avail.

In a factory near the city of Valencia the authorities have discovered a quantity of arms and ammunition and similar stores are believed to be in existence in different parts of the province. The arms referred to are known to have been smuggled into Spain quite recently and are of foreign manufacture, showing their shipment to be part of the plan of campaign being conducted by the Cubans in Spain.

The Spanish officials, as usual, are blaming the United States for the troubles in this country, basing the assertions made on the fact that among the leaders of the recent riots was Dr. Bernardo Toledo, said to be an American citizen, whose brother is in command of a force of Cuban insurgents. It is claimed that money, arms and ammunition were served out to the rioters from the house which he occupied, and a search of the building is said to have resulted in the discovery of a number of letters from the United States, Cuba and Argentine Republic, showing that the outbreaks here have been planned by the leaders of the Cuban insurgents and that the movement is widespread and capable of assuming most serious proportions.

Another feature of the situation here is the effort being made in certain quarters to arouse the masses against the Protestants, all Americans being classed as Protestants, and to them, as already stated, being attributed Spain's reverses in Cuba and the growing insurrection here. The Cuban agents, however, are doing everything possible to counteract this movement, and are urging the people to place the blame for the excessive taxation, the military blundering and the political bluster where it really belongs—upon the shoulders of the Spanish government—and not to be misled by such foolish inventions as the statements emanating

from semi-official sources and for a time pretty generally believed that agents of the United States government were over-bidding the agents of Spain wherever the latter tried to purchase warships for the Spanish government.

CHURCH AND LABOR.

Gompers Tells Why More Workingmen Do Not Attend Worship.

INDIANAPOLIS, Aug. 7.—The answer of President Samuel Gompers of the American Federation of Labor to questions put by Rev. H. Francis Perry, pastor of the Hyde Park (Mass.) Baptist church, have been made public.

Pastor Perry propounded two questions to President Gompers:

- What reasons would be given by your associates who do not attend church for their absence from church?
- What remedies would you propose to bring your associates into closer touch with the church?

President Gompers responds, with reference to the first proposition, that the reason of nonattendance of workingmen, as a class, is that the spirit now dominating the churches is no longer in touch with their hopes or aspirations; that the churches have no sympathy with the real causes of the misery or severe burdens which the workers have to bear; that if the ministers have such knowledge, they lack the courage to proclaim the situation; that organization of trades unions has been generally frowned down with contempt, treated indifferently or openly antagonized by the ministers and the apparently stanch supporters of the church. The church and the laborers have drifted apart because the latter have always had their attention directed to the sweet 'by and by' to the utter neglect of the conditions arising from the bitter 'now and now.'

President Gompers further says that the laborers look upon the church as the Apologist and Defender of the wrongs committed against the interests of the people, because the perpetrators are rich supporters of the movement.

Concerning the second proposition, Mr. Gompers says that he realizes that there are honorable exceptions in the ministry, and he believes that a complete reversal of the present attitude would, perhaps, be most likely productive of results desired by Christian workers. To this he adds:

"He who fails to sympathize with the movements of labor, he who complacently or indifferently contemplates the awful results of present economic and social conditions, is not only the opponent of the best interests of the human family, but is particeps criminis to all wrongs inflicted upon the men and women of our time, the children of today, the manhood and womanhood of the future."

KILLED ON HIS WHEEL.

Storm and Heat Prove Fatal to Five in Chicago Yesterday.

CHICAGO, Aug. 7.—During a heavy thunder and rainstorm last evening at 5 o'clock, Walter Scott, 27 years old, of the firm of Bauer & Scott, stone dealers, was instantly killed by lightning on Calumet avenue, while riding home on his bicycle.

While the thermometer did not register as high as during the previous two days, the effects of the great heat were more deadly. During the day there were four fatal cases of sunstroke, and nearly a score of more or less serious prostration. The rainstorm, which began about 5 o'clock and did not last much more than half an hour, flooded most of the basements in the downtown or business district from 5 to 10 inches.

Worse in New York.

NEW YORK, Aug. 7.—Five deaths and 21 prostrations from heat were reported to the police of this city yesterday. The thermometer at 2 p. m. indicated 91 degrees, the maximum humidity being 80. George Kupper, a truck driver, was driven violently insane by the heat.

Compelled to Retire.

SHARON, Pa., Aug. 7.—Hon. Joseph C. Sibley was compelled to give up campaign work and return home yesterday on account of a severe cold. He hopes to resume his tour after a few days' rest. Mr. Sibley was asked if he would take second honors and run with Bryan in case that Watson and Sewall withdraw and he said: "Nothing would please me better than to be Mr. Bryan's running mate."

Fatal Boiler Explosion.

ANDERSON, Ind., Aug. 7.—The boiler of a traction engine, part of Joel Menefee's thrasher outfit, exploded southwest of this city, killing David Wynnant outright, and injuring several others, among them Daniel Wynnant, a twin brother to David. No two pieces of the engine were left together. The outfit has been considered unsafe for the past season.

A Ramsey (Ills.) Fire.

PANA, Ills., Aug. 7.—A disastrous conflagration visited Ramsey, 14 miles south on the Illinois Central, at an early hour yesterday, destroying the major part of the business portion, including the Fayette County bank. The loss will reach \$30,000, with \$5,000 insurance. The origin of the fire is supposed to be incendiary.

Caused by a House Fly.

VALPARAISO, Ind., Aug. 7.—Isaac Zane, a Chesterton farmer, was stung on the arm by a common house fly that had feasted off the putrid flesh of a dog. The arm swelled to four times its normal size, and it will have to be amputated to save his life.

DESPERADO CAUGHT.

Charles Lewis, Who Shot the Halls, Run Down in a Cornfield.

FORT WAYNE, Aug. 7.—After a three days' chase and almost superhuman efforts on the part of the regulators in pursuit of their quarry, the man who shot down Thomas Hall and his son Howard near Huntertown, was caught Tuesday three miles from Spencerville. He was at once brought to this city under heavy guard to prevent threatened violence. F. H. Boyle, one of the regulators, caught sight of the fugitive stealing through a patch of woods near his farm, and at once gave chase. Upon coming in range Boyle began firing, and the noise brought out the regulators from all directions. The fugitive was driven into a cornfield, which was at once surrounded, and when the farmers began to rake the field with rifle shots he gave up. His feet were in a horrible condition, as he had run for miles without shoes to avoid making a trail.

He gives his name as Charles Lewis, and says that he lives in Chicago. He is 19 years old, and is well dressed. He was nearly dead from the fatigue of his flight, and he confessed to the officers who caught him that he was the right man. The officers believe that he is a bicycle thief who is wanted, and that he attempted to steal the clothes from Hall's residence. He went for two days and nights without food.

DEPRIVED OF CITIZENSHIP.

The Negroes Who Have Lived in the Creek Nation.

PERRY, O. T., Aug. 7.—The final decree has been promulgated from Okmulgee, the capital of the Creek nation, as it was handed down by Judge Adams, chief justice of the supreme court of the nation, in the citizenship case. It strikes from the rolls of citizenship of the nation the names of over 1,700 negroes. The decision held that the act of the Indian council, after the passage of the emancipation act by the United States, in admitting negroes to tribal relations, was unconstitutional, and, therefore, at this time, invalid. Since the passage of the act these negroes have drawn in annuities \$1,000,000 from the Creek government, have held positions of official trust and have improved their farms and educated their children at the nation's expense for 20 years.

From the decision of the court there is no appeal. The interior department has held to the same opinion in a similar case. The Dawes commission, which has been appealed to by the deposited negroes, claims it has no right to interfere with the decision of the Indian court.

Boy's Thoughtless Act.

SHELBYVILLE, Ind., Aug. 7.—A tragedy was enacted at Lewis creek in the killing of Miss Pearl Hilt, daughter of Samuel Hilt, by Millard Sullivan, the 13-year-old son of Harry Sullivan. The boy is a nephew of the murdered girl. Miss Pearl had dressed herself preparatory to attending church services, and, while seated in a chair, the boy entered and, taking a revolver from the mantel, he remarked, "I'll show you how to shoot." Almost instantly the weapon was discharged, the bullet striking Miss Hilt in the neck and severing the jugular vein, her death soon occurring.

Hobos' Paradise.

LOGANSPORE, Ind., Aug. 7.—A gang of 50 tramps are encamped a half mile west of this city in a large grove. The place is provided with springs, and the hobos have prepared for an extended stay. Already farmers complain that their gardens, henries, and corn fields are suffering from depredation. Yesterday an even 20 applied for food at the northern Indiana hospital for the insane. Numerous fires are kept burning during the night, and the vagrants hold high carnival roasting corn, chickens and other articles of stolen food.

King George May Abdicate.

LONDON, Aug. 7.—A dispatch from Berlin to a news agency was printed here saying that it was stated that the various European courts have received letters from the royal family of Greece, saying that King George may abdicate in favor of the crown prince, the Duke of Sparta, if Greece is compelled by the powers to desist from her aspirations to make the island of Crete a part of the Grecian dominions.

Severe Storm at Wanatah.

LAPORTE, Ind., Aug. 7.—During a severe storm which prevailed yesterday at Wanatah, this county, the large flouring mill of Comitz & Dolman was struck by lightning and entirely consumed. Loss, \$15,000; partially insured.

Annual Commencement.

VALPARAISO, Ind., Aug. 7.—The annual commencement exercises of the northern Indiana normal school will be held on Thursday of next week. The Rev. Dr. Rush of Chicago will deliver the address. There will be 1,350 graduates.

Mrs. Hicks-Lord Dead.

NEW YORK, Aug. 7.—Mrs. Annette Hicks-Lord, who was in her day one of the most notable figures in New York society, died at her residence in this city, aged 67. She was descended on her mother's side from a titled English family, and was related to General Robert Schenck, once United States minister to Great Britain.

To the Other Shore.

GALLIPOLIS, O., Aug. 7.—Mrs. Elizabeth Brown, wife of Captain Marlin E. Brown and mother of Captain Dick Brown, well known and prominent steamboatmen, died at her home yesterday with typhoid fever after an illness of several weeks. The funeral will take place Saturday afternoon.

Wanted For Larceny.

LIMA, O., Aug. 7.—On advices received from Jamestown, N. Y., officers here arrested Herbert Newton, a young man 22 years of age, on the charge of larceny. He will accompany the sheriff to Jamestown without requisition papers.

A MILITIAMAN SHOT.

Strike Trouble at Cleveland by No Means Over.

CHILD KILLED BY A PET LION.

Peculiar Religious Excitement Breaks Out at the Mining Camp of New Pittsburg. One Sent to an Asylum—Incendiaries Still at Work in Berea—Idle Men at Lorain—Other Ohio News.

CLEVELAND, Aug. 7.—A militiaman was shot in Luther street, in the East End, early yesterday morning. Between midnight and 1 o'clock a crowd made a sudden attack on a building where a man named Johnson, who is employed at the Brown hoisting works, lives. They broke in the windows and yelled like Indians.

The soldiers heard the disturbance and rushed to the scene. Part of the crowd scattered, but a dozen men stood at bay, with revolvers, and fired at the militiamen. The soldiers replied with rifle balls, and then the men scattered. In the melee Private Perkins of Company B was shot, but it is not known how seriously. He was taken away in an ambulance. The official statement is that Perkins was accidentally shot while loading his revolver. It is claimed by others, however, that he was wounded in the Luther street skirmish.

CHILD KILLED BY A LION.

Horrible Death of a Baby at Chillicothe, Ohio.

CHILlicothe, Aug. 7.—A horrible accident occurred at the fair grounds Wednesday afternoon. A portion of Hagenbeck's animal show occupies the tent just inside the gate, and a big lion was chained in front of the tent as an attraction.

Eddie Hurd, the 2-year-old son of Mr. and Mrs. Thomas Hurd, who have charge of the show, was playing near the lion. The brute watched the child as he came nearer and nearer and finally, with a movement as quick as lightning, seized the child's head in its jaws. The boy's father and mother were standing near by and a great crowd of people was in front of the tent. Women fainted and there was great excitement. The father sprang on the lion, and with the greatest difficulty forced the beast to open its jaws. The top of the child's head had been crushed.

There is a woman with the show who makes a regular practice of putting her head in the lion's mouth, but that feature will be omitted from the program for some time to come. It is said that the lion was turned over to the show by James J. Corbett, the champion pugilist. After the accident the lion was dragged into the tent and locked in a cage.

RELIGION CRAZY.

Peculiar Fervor, Bordering on Fanaticism, on at New Pittsburg.

NELSONVILLE, O., Aug. 7.—New Pittsburg, a mining camp a few miles from this city, is the scene of the most intense religious excitement, bordering upon fanaticism. The leaders claim to be in personal communication with the Lord and act under instructions from Him. Excitement is so high that families have been broken up and numerous fights have occurred over the matter. The people have tried every way to get rid of the fanatics but failed. Warrants were sworn out yesterday for the arrest of the leaders, Mart Sears and his two brothers, and when arraigned before the justice they were furious and denounced the court in the most bitter terms, insulting the justice in the highest manner, even climbing upon the desk and spitting upon him.

The trio was finally landed in jail and Mart was taken to the Athens asylum and the others will surely follow. Their followers number about 150, some of whom have given up as high as \$150 each upon being converted. The more conservative people predict that the trouble will end in bloodshed.

Dollie's Drop.

BATAVIA, O., Aug. 7.—Miss Dollie Dennison, while out for a spin on her wheel yesterday, was coasting down the old Methodist church hill, when she suddenly lost control of her wheel, precipitating herself down the embankment, breaking her right wrist. Dr. Percy M. Ashburn was summoned and set the wounded member.

Incendiary.

BEREA, O., Aug. 7.—An attempt was made at midnight by incendiaries to burn the house of Charles Moore, a non-union quarryman. The veranda was saturated with coal oil, but the incendiaries were frightened away before the match had been applied. There is no clew to their identity. Everything is quiet at the quarries.

To the Other Shore.

GALLIPOLIS, O., Aug. 7.—Mrs. Elizabeth Brown, wife of Captain Marlin E. Brown and mother of Captain Dick Brown, well known and prominent steamboatmen, died at her home yesterday with typhoid fever after an illness of several weeks. The funeral will take place Saturday afternoon.

BOURBON County Democrats have endorsed Bryan and Sewall and organized a club with 955 members. Bourbon's right in it this time.

THE late James G. Blaine's free silver speech will appear in to-morrow's issue of the BULLETIN,—or sufficient to show he was an advocate of the unlimited coinage of silver. The speech is too long to be given in full.

DR. FIRESTONE, President of the Columbus Buggy Company, who has been a life-long Republican, will vote for Bryan and silver and says that 1,000 men employed by him, most of whom are Republicans, expect to do the same. It will take Major McKinley a long time to get enough "sound moneyites" to make up for such losses.

FRIEND, in the event of free silver at the ratio of 16 to 1, how are you going to get any of it? There is nothing in the Democratic platform that will start a wheel or spindle in the United States, nothing that will take the poor man out of his truck patch and put him in the factory; nothing that will make a nickel's increase in the demand for the products of the farm. While the silver baron is doubling his millions over and over and again, where do you come in? Please think this over carefully and candidly.—Ripley Bee.

You don't seem to agree with your great statesman, Senator Sherman. Asked a few days ago if free coinage would result in an increase in the price of farm products, he replied, "Unquestionably it would." Good prices for farm products would soon make good times.

"ANARCHISTIC" UTTERANCES.

"With free and unlimited coinage of gold and silver, we will clear away our public debt before the close of the century."—U. S. Grant in 1873.

By the experience of commercial nations in all ages it has been found that gold and silver afford the only safe foundation of a monetary system.—From the inaugural address of James A. Garfield.

I cannot say what took place in the House, but know when the bill was pending in the Senate we thought it was simply a bill to reform the mint, regulate coinage, and fix up one thing and another, and there is not a single man in the Senate, I think, unless a member of the committee from which the bill came, who had the slightest idea that it was even a squint towards demonetization.—Allen G. Thurman in the United States Senate, February 15, 1878.

I believe also in bimetallism. *I believe the world made a mistake when it demonetized silver.* I sincerely hope some safe way may be found for the restoration of silver to its place alongside of gold as a money of ultimate redemption. I shall favor every measure calculated, in my judgment, to bring about the redemption, subject always, however, to the condition that it provides for the maintenance of the two metals.—From the address of Joseph B. Foraker upon his election to the United States Senate by the Legislature of Ohio.

PROSPERITY
Predicted by Rev. Talmage If Silver Wins.
What He Says on This Question.

[Cincinnati Enquirer.]

NEW YORK, August 4.—Rev. Dr. T. DeWitt Talmage arrived at East Hampton on Friday last from Chautauqua, where he had attended an educational convention. He has made a tour of the country. Not only in the big cities did the doctor mingle with the residents, but in remote and sparsely populated districts and in minor townships and villages.

"During my entire trip," he said today, "I did not find more than one or two men who are not silverites. The unanimity was astounding. The sentiment down South is universally for the white metal. Bryan and Sewall will get a very large vote from that section of the country. I am not advocating that side of the political question, but I do not believe, with a good many of my Christian friends, that in the success of that movement the country will greatly suffer. Instead," he continued, "I believe that if the silver people win there will be such a revival in business, such a booming in industries, which are now inactive, and such a general shaking up of commercial interests that the country will be sure to prosper."

PITHY POLITICAL POINTS.

"Gold Bugs" and the Silver Standard—Arguments For Free Coinage of Silver.

It may make some men feel larger and of more importance to be termed "gold bugs," but we are certain it doesn't make their pockets any heavier.

No one, but a millionaire either in money or its equivalent, which land certainly is not, may by any possibility have any interest in supporting the present monetary policy of the country. It does seem that Democrats should look well over the ground and see whether they haven't graver charges against the Republican party than they can possibly have against their own, before branding themselves as deserters.

The gold policy stands for oppression, low prices and hard times, as the most unobservant and obtuse may perceive, these conditions being at all times at the noseends.

Does any intelligent agriculturist believe for a moment that scarce money, the result of the "corner" created by the millionaires and their tools, was brought in the interest of any but the millionaires themselves?

Surely our agricultural friends, who propose by their votes to continue the present monetary policy of the country, may not expect, should the result be in their favor, that the products of their lands shall be advanced thereby.

What has Mr. McKinley seen or found to change him from an ardent silver supporter to his present attitude on the subject, only that he was bought by the offer of place and political preferment? It does look as though every man has his price.

The gentlemen who are engineering the gold movement through the instrumentality of the Republican party are as un-American in all their ideas as it is possible for men to be.

By what reasoning or calculation may any man oppressed by the present hard times work himself into the delusion that a continuation of the present conditions of finance shall make things any better for him?

That silver bullion will advance in price should that metal be remonetized is as much a certainty as that gold has become scarcer and, per consequence, higher since silver was debased in the interest of the yellow metal. The editor of the Courier-Journal says that it will not.

The scarcer an article is made by any process whatever, the better it is for those who possess abundance of the article, and harder it is for those who lack. With a full and complete understanding of this fact, was the demonetization of silver conceived.

We all know that when a "corner" is made by speculators in any product it is for their own benefit, and does not inure to the benefit of the masses. So in like manner was the demonetization of silver brought about, and certainly no one may claim that the usufruct has found its way into the laps of any but its progenitors.

Our Next Congressman.

Dover News: "Monday Col. LaRue Thomas, Mason County's candidate for Congress from the Ninth district, was in Dover and Minerva talking with his many friends. BANK TAXES.

A New Point in Dispute—If Auditor Stone Wins It Means Big Money For the State.

[Courier-Journal.]

FRANKFORT, KY., August 5.—A contention has just now arisen between the Auditor and the banks of the State, the result of which probably means much litigation, legislation, and, if the Auditor wins, the recovery of hundreds of thousands of dollars by the State in back taxes. The Auditor does not want to talk about the matter, and the full details of the new contention are not immediately forthcoming. However, the main point made by the Auditor to the banks is that they have not been paying taxes on enough of their surplus.

The Hewitt law requires banks to pay a seventy-five cents' tax on their capital stock and forty-two and a half cents on their surplus.

The law further provides that in paying taxes on their surplus the banks can deduct from this surplus whatever portion of it (the surplus fund) is invested in Government bonds. It is said that the Auditor has found frequent instances which can be illustrated as follows: A bank is organized with \$100,000 capital. It, to meet the requirements of the national banking law, invests this \$100,000 capital stock in Government bonds, and goes into the banking business. Soon it earns \$150,000 surplus, but declines to pay forty-two and a half cents on more than \$50,000 of this \$150,000 surplus, claiming the right to deduct from it the \$100,000 worth of Government bonds in its possession. The Auditor claims, it is said, that in such an instance the bank should pay forty-two and a half cents on the whole \$150,000, because none of it, but the capital stock, was invested in the \$100,000 bonds it holds, and the law provides for deducting only the worth of the bonds obtained by investing the surplus fund itself in such bonds.

There are other points in the contention, which can not be gotten at because of the reticence of all concerned.

HOSIERY.—We ask you to come to-day equipped with your best Hosiery knowledge. We hope you will be wide awake in criticism, knowledge and comparison. Why? Because then you will realize the bigness of the price-pinch we make—25c, fast black double-gauge high-spliced stockings for 18c, two pair for 35c, is a trade-temper, isn't it? Don't take any one's word for it; come and see the kind of hose we will give you for 18c. Cheap stockings don't pay, unless you love the darning bag, but when high grade hosiery is offered at the price of common goods only economy, in different people will miss the chance. Money back on every pair purchased if not as represented and satisfactory.

PERCALES.—Regular 12^{1/2}c, yard wide, fast color kind for 10c. Full assortment of colors, in light and dark effects and pretty black and white designs.

RUGS, straight from Japan, with all the beauty and worth the patient Jap could weave into them. Hearth size, 36x72. Price, \$1.19.

SERGE.—For the small maid's school gown, for separate skirts, for wrappers for any use for which you want servicable, 38-inch, all wool, slightly looking dress goods, in black or colors, at a price that makes buying easy—23c. the yard.

REMNANTS have to go. It will be money in your purse to look them through. Woolen Wash and Silk goods, Lawns, Embroideries, Table damask, a few Ribbons—not a great many of any kind, but the small lots may hold just what you want. Looking don't cost. We are glad to show you through the stock.

EARTH DEPRESSIONS.

Excited Negroes Believe That the Judgment Day Has Come.

MANSFIELD, Mo., Aug. 7.—The people in this section of the country are becoming much alarmed over what appears to be the gradual sinking of the earth in certain localities. It has been little more than a year ago since a whole field fell an average of little more than two feet. Within the last two weeks the ground has become very dry from want of moisture, and as a result crevices, some of which are a foot wide, have appeared in the earth. Eight miles south of here, in Douglas county, there is a very noticeable depression of several inches covering more than a section of land.

Another evidence of this inexplicable phenomena occurred in Texas county a day or two ago, when a sudden sagging of the earth swallowed up a horse while hitched to a plow, and it was with difficulty that the driver saved himself. These strange occurrences seem to come periodically with certain seasons. Nobody is able to advance a reasonable theory for the existence of such a state of things.

The negroes have become so wrought up over the matter that many of them are leaving the country. They declare that it is an indication of the early arrival of the judgment day.

ELECTION IN TENNESSEE.

Usual Democratic Majorities Prevail So Far as Reported.

MEMPHIS, Aug. 7.—Advices from West Tennessee counties indicate that the vote in yesterday's election for judges of the court of chancery appeals was unusually light. The Democrats seem to have held their own in all western counties, electing in almost every instance their local tickets and giving the usual Democratic majorities to the state ticket. Barton, Neil and Wilson, Democratic nominees for chancery court of appeals, judges have carried Shelby county, including the city of Memphis, by 2,500 majority. The vote was generally light throughout the county. The entire county Democratic ticket is elected by majorities ranging from 2,000 to 2,200. Carnes for sheriff, who was fought bitterly by many Democrats, lead the ticket, securing many Republican votes. The election passed off quietly.

Majorities Not Estimated.

NASHVILLE, Aug. 7.—Returns are coming in slowly but all show that Judges Barton, Neil and Wilson, Democrats, have been elected judges of the court of chancery appeals, majorities can not yet be estimated.

"POTATO PATCH" PINGREE

Nominated For Governor by the Republicans of Michigan.

GRAND RAPIDS, Aug. 7.—Mayor Hazen S. Pingree of Detroit was nominated for governor on the fourth ballot by the Republican state convention yesterday afternoon. His principal competitor was Colonel A. T. Bliss, who was supported by the Republican machine.

Mr. Pingree has been elected mayor of Detroit three times, and has done much for municipal reform. It was he who originated and put into practical execution the scheme of allowing poor people to cultivate uncultivated lots in Detroit, for raising potatoes and other products, from which he became known as "Potato Patch" Pingree."

KILLED AT A FIRE.

CHRISTIANA, Aug. 7.—A disastrous fire occurred in a gilding factory here yesterday and before it was extinguished several buildings were destroyed. A falling wall killed six men and 13 others were seriously hurt, of whom three have since died. It is believed that three children have also perished in the flames.

MARYSVILLE DIVISION.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
